

Politician Characteristics: Exploratory Fixed-Effect Results

Original `politicians_characteristics.csv`
Legacy not-yet/partial-zero-spell controls

August 2026

Abstract

This report compares 32 fixed-effect specifications using Legacy not-yet/partial-zero-spell controls. Each specification presents the baseline politician event study for event years -5 through 4, with -1 omitted, before and after pretrend rotation. It also presents one non-rotated DiD interaction plot for `post` $\times$ `treat` $\times$ `downup_ac_pop`, following `_app_19_polischar_fe12_did_downup_inter_plot.do`.
